

STUNT THE SPORT

STUNT Overview

Club Stunt is a competitive team sport derived from cheerleading. Stunt removes the crowd-leading element and focuses on the technical and

athletic components of cheer which include partner stunts, pyramids, basket tosses, jumps and tumbling in a head-to-head game format.

USA Cheer establishes eligibility guidelines to promote a safe and sportsmanlike environment. USA Cheer believes that organizers of club STUNT should provide playing opportunities that, as much as possible, aim to establish a “level playing field” among players of similar age.
